

PTW-100P-5A/10A/20A/30A

Power Supply Unit

Description

Power supply unit comes in four models, PTW-100P-5A, PTW-100P-10A, PTW-100P-20A, PTW-100P-30A.

Wall-mounted installation, built-in battery, compatible with lead-acid battery or lithium iron phosphate battery. It has the function of protecting battery. It is composed of modular units to enhance the safety system and facilitate maintenance. AC220V 50Hz power supply, output voltage DC24V~DC28V and can be adjustable.

Feature

- Voltage and current dual display.
- Two-color display working status indicator light, simple and clear design.
- The backup power supply can be directly put into operation when there is no AC.
- Acrylic technology.
- Multiple protection and automatic recovery functions.
- When the power supply fault can sound alarm.
- Can output fault signal (level signal and dry contact).

Specifications

| | PTW-100P-5A | PTW-100P-10A | PTW-100P-20A | PTW-100P-30A |
|------------------------|----------------------|----------------------|----------------------|----------------------|
| Dimension | 260mm×360mm×140mm | 260mm×360mm×140mm | 462mm×460mm×170mm | 462mm×460mm×170mm |
| Output voltage | 24V~28V (Selectable) | 24V~28V (Selectable) | 24V~28V (Selectable) | 24V~28V (Selectable) |
| Maximum output current | 5 amps | 10 amps | 20 amps | 30 amps |
| Supply voltage | AC220V 50Hz | AC220V 50Hz | AC220V 50Hz | AC220V 50Hz |
