

PTW-100CP-10A/20A/30A

Power Supply Unit, Rack Mount

Description

Power supply unit, rack mount comes in four models, PTW-100CP-10A, PTW-100CP-20A, PTW-100CP-30A.

Standard industrial control cabinet installation with built-in battery, compatible with lead-acid battery or lithium iron phosphate battery. It has the function of protecting battery. AC220V 50Hz power supply, output voltage DC24V~DC28V and can be adjustable.

Feature

- Voltage and current dual display.
- Two-color display working status indicator light, simple and clear design.
- The backup power supply can be directly put into operation when there is no AC.
- Acrylic technology.
- Multiple protection and automatic recovery functions.
- When the power supply fault can sound alarm.
- Can output fault signal (level signal and dry contact).

Specifications

	PTW-100CP-10A	PTW-100CP-20A	PTW-100CP-30A
Dimension	482mm×230mm×88mm	482mm×230mm×88mm	482mm×230mm×88mm
Output voltage	24V~28V (Selectable)	24V~28V (Selectable)	24V~28V (Selectable)
Maximum output current	10 amps	20 amps	30 amps
Supply voltage	AC220V 50Hz	AC220V 50Hz	AC220V 50Hz
